May 2009

We had a great turnout at Abbott Diabetes Care in Alameda for our April event. This was the second year that ADC hosted an event for our East Bay chapter and we're very grateful for their continued participation. Senior members of ADC's Supplier Management team presented the company's unique approach in managing their worldwide partners. We had numerous questions at the end of the presentation that sparked a good discussion. Hopefully ADC will be available to host another event next season!

We are very excited about this month's event on May 21st at Scott's Seafood Restaurant. Michael Warncke, Ph.D, of Bayer Healthcare will be discussing his company's training and management program for the application of six sigma and lean quality tools to process optimization and troubleshooting projects. In addition, he will be reviewing a case study of a successful Lean Six Sigma project and the lessons learned.

Please send any questions to chair@asqeastbay.org. We welcome all of your inquiries. See you at Scott's on May 21st!

Wai Wong
Chair-Elect, ASQ East Bay Section 0618
